

MEPNN Supplier Scouting Opportunity Synopsis

Item Information

Scouting Number	2023-088
Item to be Scouted	Cold drawn extrusion materials
Days to be scouted	45
Description	Cold drawn extrusion materials. Carbon steel, commercial quality alloys, aircraft quality alloys, stainless steels, tool steels, and high strength steels with exceptionally tight tolerances.
State item to be used in	Louisiana

Contact Information

Email	wynn.landry@mepol.org
First Name	Wynn
Last Name	Landry
Department / Company / MEP Center	Manufacturing Extension Partnership of Louisiana
Bureau / Division / MEP Center Regional Office	South Louisiana Community College

Supplier Information

Type of supplier being sought	Manufacturer
Reason	2nd Supplier

Summary of technical specifications and performance requirements

Describe the manufacturing processes (elaborate to provide as much detail as possible)	Cold drawn 8620 carbon steel. 12 to 14 feet sections.
Provide dimensions / size / tolerances / performance specifications for the item	Cold drawn steel in 12 to 14 ft sections with .003 in tolerance see attached drawings
List required materials needed to make the product, including materials of product components	8620 carbon steel
Are there applicable certification requirements?	No
Are there applicable regulations?	No
Additional Technical Comments	tolerances for finished product will need to be +/- .003 inch

Volume and Pricing

Estimated potential business volume	10 thousand to 100 thousand pounds of product per year with various sizes.
Estimated target price / unit cost information (if unavailable explain)	\$1.25 to \$3.25 per pound depending on shape

Delivery Requirements

When is it needed by?	3 to 6 months. sooner would be better
Describe packaging requirements	12 to 14 ft. lengths banded in 3 to 5 thousand pound bundles

Where will this item be shipped?	Broussard, Louisiana
